If the applicant is someone other than the legal owner of the property, said applicant shall be required to submit the property owner's written verification acknowledging permission for placement of the sign on the property.
2. Application Requirements.
 - a. An application for a sign permit may be filed only by a contractor licensed by the State to erect signs, or where otherwise permitted by law, the owner of the lot, or with the owner's written permission, the owner's designee, and if not the owner, the applicant must include the owner's written verification acknowledging permission for placement of the sign on the property.
 - b. An application for a sign permit shall be filed with the Building Official on a form prescribed by the Building Official, along with the approved fees incident to application and permit.

Each application for sign permit shall contain the Information required on the application form, and such other information regarding the proposed sign as the Building Official may deem necessary in order to determine whether the proposed sign complies with the applicable requirements of this ordinance and other applicable ordinances of the City.
 - d. The Building Official shall determine whether the application is complete. If the application is determined to be incomplete, the Building Official shall notify the applicant of any deficiencies and shall take no further steps to process the application until the deficiencies are remedied.
3. Approval Procedure. Signs shall be erected, installed or created only in accordance with a duly issued and valid sign permit from the Building Official. Such permit shall be issued only in accordance with the following requirements and procedures:

- a. An application for construction, creation or installation of a new sign or for modification of an existing sign shall be accompanied by a detailed drawing showing the dimensions, design, structure and location of each particular sign, and such other information as is required to comply with this Ordinance. A separate application and permit is required for each sign. The Building Official shall cause an inspection of the site for which each permit for a new sign or modification of an existing sign is issued within six months following issuance of a permit, or at such earlier date that the owner may request.
- b. Within ten business days of receiving an application for a sign permit, the Building Official shall review the application for completeness. Within ten business days of finding an application to be incomplete, the Building Official shall provide written notice to the applicant detailing the specific deficiencies in the application, with appropriate references to this ordinance.
- c. Within twenty business days of receipt of a complete application for sign permit, the Building Official shall either:

 - ii. Deny the sign permit if the sign fails to conform to either the requirements of this ordinance or the sign permit application. If the sign permit is denied, the Building Official shall then give written notice to the applicant detailing the specific deficiencies, with appropriate references to this ordinance.
- d. Any person may appeal a decision of the Building Official concerning enforcement of the provisions of this Ordinance by filing such appeal with the Mayor within ten business days after the decision by the Building Official. The appeal will then be scheduled to be heard by the City Commission at a regular or specially called meeting, with public hearing scheduled there on, and following such public hearing, the City Commission at such meeting will then take action on the appeal by either deferring, rejecting or approving the appeal as submitted. If the Decision of the Building Official is to be appealed respecting a sign in existence; no action shall be taken on the sign while the decision is being appealed to the City Commission, unless the sign, by virtue of its physical condition, presents an immediate and significant threat to public safety.

4. Lapse of sign permit. A sign permit shall lapse if the use of a building or premises by a specified business or other establishment is discontinued by the owner or occupant for a period of ninety days or more. Any sign for which a permit lapses shall be considered an abandoned sign and shall be removed as provided by this ordinance.
5. Removal of Signs. Abandoned signs and signs which do not conform to the requirements of this ordinance shall be removed. Any sign permit application for premises which is not in conflict with the requirements of this ordinance or which has not otherwise lapsed shall remain in effect for the premises.

- iii. Notwithstanding other provisions of this ordinance, any such sign or light source constituting a traffic hazard shall be removed at the direction of the Building Official and/or his or her designee. If not removed by the owner or occupant of the property within ten days of notice, unless otherwise deemed an immediate hazard, the Building Official and/or his or her designee shall cause the sign to be otherwise removed, and the cost of removal shall become a lien against the property from which it was removed until payment for removal is satisfied.
